Oil Train Derailment, Mosier, Oregon

On 06/03/16 at approximately 1345 hours, a multi-car oil train derailed in the Columbia River Gorge near the town of Mosier, Oregon.

- It is unknown what type of oil is involved in the derailment.
- The train is operated by Union Pacific Railroad (UPRR).
- There are no reports of injuries.
- Ken Armstrong, spokesman for the Oregon Department of Forestry, says the incident involved 11 cars filled with oil and one is burning.
- Highway 84 is closed for a quarter-mile near the site and the radius for evacuations was a half-mile.
- Mosier Community School was evacuated, according to a spokeswoman from the superintendent's office of the North Wasco County School District 21.
- The California State Warning Center (CSWC) has not received any requests for assistance.

SPILL: 16-3308, Chevron Refinery, El Segundo, Los Angeles County

On 06/02/2016 at 1953 hours the California State Warning Center (CSWC) received notification from Chevron of a Power Outage and subsequent flaring event at their El Segundo Chevron Refinery, in El Segundo, Los Angeles County.

- Per Chevron on 06/03/16 at 1044 hours:
 - They exceeded the 500 lbs. reportable quantity of sulfur dioxide (SOX) due to the flaring event.
 - Two of the three stacks have stopped flaring. The third stack is expected to stop flaring at approximately 1800 hours on 06/03/16.
 - There are no expected impacts to the community or to the environment.
 - Chevron will continue to provide updates as they become available.

SITUATION SUMMARY

Southern Region Excessive Heat Event 06/03/16 – 06/05/16

Preparations are underway in response to the forecasted Excessive Heat Event for this upcoming weekend, 06/03/16 – 06/05/16.

Imperial County

- Imperial County will activate their designated Cooling Centers during the weekend of 06/03/16 – 06/05/16.

Orange County

- The National Weather Service (NWS) has issued a Heat Advisory for inland Orange County.
- The Operational Area (OA) will monitor the situation, but does not plan to activate their Excessive Heat Plan.
- County government buildings are available as Cooling Centers. No additional facilities are being opened.

San Diego

- San Diego County hosted an Excessive Heat Response Plan Task Force conference call on 06/06/16 at 1300 hours. During this call, the National Weather Service (NWS) announced that they are issuing a Heat Advisory for the inland valleys of San Diego County for the upcoming weekend.
- The County will implement the following actions during the weekend:
 - All libraries will be open and serve as Cooling Centers. [The libraries will operate on a regular schedule with the exception of Borrego Springs which will have extended hours from 0900 – 1900 hours on 06/03/16 and 06/04/16.](#)
 - Aging and Independent Services have identified Cooling Centers (local businesses and libraries) that will be open during the weekend. Contacts on this list are currently being verified before the list is finalized. A 24/7 hotline has been established and is available. All information available will be coordinated with County OES and 2-1-1.
 - Animal Services will send the County Communications (PIO) the Heatwave Endangers Pets document for dissemination to the public. This information will also be posted to their Facebook page.
 - Air Pollution Control District stated that the air quality will be “unhealthy for sensitive groups” in the areas of Alpine and Ramona.

San Bernardino County

- Temperatures forecasted for portions of the County meets the Excessive Heat Warning Phase III of the San Bernardino County Operational Area (OA) Excessive Heat SOG. San Bernardino County Operational Area has advised their cities of the Excessive Heat Warning.
- At this time, the OA plans to monitor the situation and gather additional information from the NWS.
- There are no official Cooling Centers designated other than air conditioned locations open to the community (www.coolingcentersb.org). If necessary, these public locations can be asked to extend their hours of operation to meet the needs of the public.

Ventura County

- Ventura County has identified Cooling Center locations throughout the County that are available to the public, if needed.

SITUATION SUMMARY

Inland Region Excessive Heat Event 06/03/16 – 06/05/16

- Kern, Madera, and Sacramento Counties have opened Cooling Centers in response to the forecasted Excessive Heat Event for this upcoming weekend.
- San Joaquin and Merced Counties will be assessing conditions throughout the weekend.
- The remaining Operational Areas have no plans to open centers or shelters at this time.
- The Inland Region Duty Officer (IDO) will continue to monitor and provide updates as they become available.

Sinkhole, Northbound/Southbound I-5 Closure, Tracy, San Joaquin County

On 05/31/16, the California State Warning Center (CSWC) was advised of a sinkhole that appeared on Northbound I-5 south of Tracy, San Joaquin County.

On 06/02/16 at 0536 hours Caltrans reported:

- Repairs and investigation have resulted in a full closure of Interstate 5 (I-5).
- Detours have been established for Northbound and Southbound traffic:
 - Exit Eastbound Hwy 132 to Northbound Hwy 33, back onto I-5.
 - Exit Southbound to Route 33 to Junction of Westbound 132 back onto I-5.
 - The detours are on the same road so the time added by the Southbound detour should be the same (10 minutes).
- The cause of the sinkhole is still under investigation.
- [Estimated Time of Reopening \(ETR\) for Northbound I-5 is 06/04/16 at midnight and the ETR for Southbound is 06/05/16 at 1200 hours.](#)
- There are no requests for State assistance.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 1	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Chimney, Vegetation Fire, Tulare County

Location: 15 miles northeast of Kernville, Chimney Peak Wilderness

Jurisdiction: Federal DPA, FRA

Start Time: 06/01/2016 at 1535 hours

Per Cal OES FDO, CAL FIRE, and current posted ICS 209 [as of 06/03/16 at 1740 hours:](#)

- 1,826 Acres, [65% Contained](#)
- Structures Threatened: 23 Multiple Residences, 1 Other Minor Structure
- Current Threat: Chimney Peak Wilderness, Owens Peak Wilderness, Dome Land Wilderness
- Anticipated Incident Containment Date: [06/07/16](#)
- CAL FIRE air resources assigned
- The Cal OES FDO will continue to monitor the incident and provide updates.
- [Per the Cal OES Law Duty Officer \(LDO\) as of 06/02/16 at 1445 hours:](#)
 - A total of 8 homes were evacuated by Tulare County Sherriff's Office (TCSO), all residents have returned home.
 - Nearby campgrounds have also been evacuated.
 - This area is also part of the Pacific Coast Trail, efforts are being made to alert hikers.
 - No shelters were used nor have any been setup.
 - With the exception of a very small portion of Inyo County, the fire is located on Federal land in the wilderness area of Tulare County.
 - No communities or populations are threatened at this time.
 - No hard road closures are in place at this time, but 9 Mile Road does have a soft closure (not manned) warning drivers of the fire.
 - The ICP is currently located at the Ranger station in Kernville but it will be moved to South Fork Elementary School in Weldon on [06/03/16](#).

FMAG, Pala, Vegetation Fire, San Diego County

An FMAG Application was received from the San Diego Cal Fire Unit for the Pala Fire.

- Per Cal OES Fire this incident does not meet FMAG criteria and will be placed on hold.

WEATHER FORECAST

Excessive Heat
Warning

Heat Advisory

Weather of Concern

- For interior Northern California into the weekend, high temperatures in triple digits likely for much of the Central Valley. The hottest days are likely to be today and Saturday, with temperatures 15-20° warmer than normal.
- For inland areas of Southwest California through Saturday, the peak of the heat is expected today and Saturday, with widespread highs in the 90s and 100s across interior areas.
- This extended heat event will bring an increased risk of heat related illness as well as elevated fire danger across interior areas.
